Nassau

the Isle of Paradise

Your dreams come true... on the sun-drenched island capital of the Bahamas. With each hour unfolding a new vision... of endless beauty with countless waters lapping the green-tinted shores of powdered beaches fringed with palm trees rising to the crystal heavens... to the best record of relaxation nature meant and everything else you can dream.

Before becoming residents of the happy past, Bahamas fishing and boating for fishermen harbors that once sheltered conquistador galleons... in varying contrast to the beautiful modern homes and newly tropical gardens. Your steps never to cross picturesque Nassau will be a quick ferry to the sun-drenched bay of "Nassau" boats, or a dash across Nassau Bay, or for the especially energetic...

...a message "The great land for you" from your dream world to one of reality... "Let's Go Shopping" is the colorful day boat and where you can find tropical fruits, conch, snails, fish, fresh seafood and many other things you can't find elsewhere.

A whole experience of Nassau and Nassau is all for your selection.

Nassau is truly unique and one of the beautiful in the beautiful Bahamas, noted for its superb beaches and endless guest houses with a wide range of modern accommodations for those who wish to visit them.
