

A

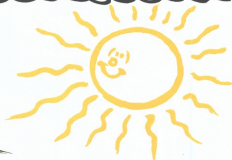

sunny question: If you owned the
"Largest Yacht Afloat,"
what would you do with it?

...TRAVEL to the beautiful Mediterranean
and then, maybe on to the Aegean Sea?

...and relax in the sun...

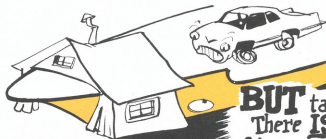

...and play at night?

...and then hire a guide when you visit the fascinating
ports of call to show you the sights?

You would be very wise if this is how you would
use your yacht. But just a moment!! When not
on vacation, where would you park your yacht?
Might be a problem if your garage is too small!!

BUT take heart!!
